Biological Insecticide Granule Controls Annual White Grubs in Turf and Ornamentals All Season Long from Spring through Fall

CAUTION

ACTIVE INGREDIENT: Bacillus thuringiensis subsp. galleriae, Gallamin 5000 S (c) 2010 Phyllom BioProducts Corp.

OTHER INGREDIENTS: Bacillus thuringiensis (Bt) fermentation solids, Bacillus thuringiensis (Bt) fermentation solids

BIOLOGICAL INSECTICIDE GRANULE CONTROLS ANNUAL WHITE GRUBS IN TURF GRASS AND ORNAMENTAL PLANTS

For turf grass and heavy thatch (more than 0.75 in), use the higher rates within the specified rate range.

APPLICATION TO ORNAMENTAL PLANTS

Sites of Application: grubGONE!® G can be used for applications to landscape ornamental plants found in, on and/or adjacent to residential plantings, commercial grounds (e.g., office and shopping complexes and airports), parks, schools, playgrounds, utility rights of way, day care facilities, pet care facilities, cemeteries, and other landscape and ornamental-plant areas. grubGONE!® G can also be effectively used as directed for applications to ornamentals in nursery, field, greenhouse, or interior plant areas.

Application Method: See Application Directions under Application to Turf Grass

If the plants are in large numbers of closely grouped pots or in the field, it may be possible to use a granular applicator followed by watering in with about 0.5 in water applied over overhead sprinklers. If there are individual pots, use 0.2 to 0.3 oz of grubGONE!® G per 10 qt of combined surface area of the closely arranged containers. For individual planting pots or plant containers, the area of a pot surface is π (pi) r², where π is 3.142 and r is the radius or half the diameter. For example, a 12 in diameter pot surface is 113 sq in, which is equivalent to 0.058 lb of grubGONE!® G per 10 sq ft of combined surface area of the closely arranged containers. grubGONE!® G must be well watered in as described in earlier paragraph; do not drench, as excessive watering may reduce the effectiveness of grubGONE!® G.

STORAGE AND DISPOSAL

Do not contain water, food or feed by storage or disposal.

PESTICIDE STORAGE

Store in a cool, dry place inaccessible to children.

PESTICIDE DISPOSAL

Wastes resulting from the use of this product must be disposed of on site or at an approved waste disposal facility.

CONTAINER HANDLING

Nonrefillable containers. Do not reuse or refill this container. Completely empty bag into application equipment. Then, offer for recycling if available, dispose of empty bag in a sanitary landfill or by incineration, or if allowed by state and local authorities, by burning. If burned, stay out of smoke.

WARRANTY AND LIMITATION OF DAMAGES

Phyllom BioProducts Corp. warrants that the material contained in this package conforms to the description on this label. We assume no responsibility for the preparation, use, or misuse of this product. We do not warrant the performance of this product when the proper amount of active ingredient is used in combination with properly formulated, approved and applicable law, or if the consumer deviates from the instructions and directions on this label. Phyllom BioProducts Corp. makes no other express or implied warranty, including the fitness or merchantability of the product.
